

*DARLINGS of US college radio, this feisty Brighton threesome are bringing their brand of modern rock back home with a series of dates to celebrate the UK release of their debut album in September.*

*Formed in the summer of 2001, Anemo received major critical acclaim across the States last autumn for Slowburn, with no fewer than 160 radio stations spinning their record.*

*Their AA-side single Made Of Fiction/Fallout Renegade – out August 14 on New York-based City Canyons Records – mixes drum loops, distortion and vocal gymnastics to full effect.*

*Anemo, along with The Shake and Volume, play Jericho Tavern, Walton Street, Oxford, on August 18.*
